

NGUYEN HOANG LONG

Full Stack Web Developer

Profile

An enthusiastic Full-stack MERN Web Developer is eager to contribute to team success. Motivated to learn, grow, and excel in the Software Industry.

Experience

Personal Project, Full Stack Tour Booking Web Application

February 2024 - June 2024

- Developed a robust full-stack web application utilizing Node.js, Express.js, and React to deliver a seamless user experience for a variety of features including user authentication, profile management, payment processing, and notifications...
- Source code: [Tour Booking API](#), [Tour Booking Website](#)
- See live: [Tour Booking API](#), [Tour Booking Website](#)

Personal Project, Full Stack Cabin Booking Dashboard

February 2024 - March 2024

- Developed a comprehensive booking management dashboard as a single-page application (SPA) using React, providing efficient management of booking operations with a modern and intuitive user interface.
- Utilized Supabase, a serverless backend service, to handle database operations, authentication, and real-time data synchronization.
- Source code: [Booking Dashboard](#)
- See Live: [Booking Dashboard](#)

Personal Project, Natour

August 2023 - December 2023

- Developed a dynamic and user-friendly tour booking website that allows users to effortlessly book tours and embark on their adventures. The website employs server-side rendering with a robust backend and a streamlined deployment process.
